Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 26 and 27 are rejected under 35 U.S.C. under 35 U.S.C. 103(a) as being unpatentable over Becherucci et al.

Becherucci et al. disclose an inspection tool for determining the condition of a fused tang/commutator bar joint comprising a sensor 13 supported by an arm 88 for inspecting the joint, and an apparatus 70 for determining the condition of the joint by scanning the interface region 310 (col. 12, lines 31-33). The commutator bar 20 comprises a generator component and the tang 21 comprises an electrically conductive interconnector. Becherucci et al. teach moving probe 313 relative to the interface region 310 (col. 12, lines 24-30). Becherucci et al. do not indicate whether the probe 313 is moved or the armature 81 is moved. Nevertheless, it would have been obvious to move the probe 313 relative to interface 310, in view of the adjustability of the arm 88 (col. 9, lines 29-32) and in view of the relative ease in moving the probe 313 instead of the armature 81 when moving beam 314 relative to interface 310 as shown in Figs. 12A-12C. The beam 314 inspects a plurality of zones in Figs. 12A-12C.

Regarding claim 27, Becherucci et al. disclose the need to have the beam 314 aimed squarely at the interface regions 308, 309 in Fig. 12A-12C (col. 11, lines 12-14). It would have been obvious to removably attach the sensor 13 proximate the joint in order to ensure that the beam is aimed squarely at the interface regions 308, 309 in Fig. 12A-12C.

3. Claims 1-3, 7, 11 and 16-20 are allowed.
4. Applicant's arguments filed December 2, 2004 have been considered but are moot in view of the new ground(s) of rejection.
5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John E Chapman whose telephone number is (571) 272-2191. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
